...BUT WE OVERCAME THE UNEXPECTED.

LANGAN

We are pleased to share this book with you. It commemorates Langan's first 50 years in business, from 1970 to 2020. Our original plan was to distribute this book to our clients, partners, and employees in March of this year. Of course, a lot of plans changed that fateful month. So we decided to wait to deliver our book, to see how things developed in the face of an unprecedented global pandemic and incidents that have inspired calls for improved social justice. Indeed, the world is experiencing adversity and together we are rising to meet the extraordinary challenges.

Yet Langan thrives on challenge. Through five decades we have endured, grown, and expanded. And with 2020 coming to an end, we decided to get our book into your hands. After all, you are part of our 50-year success story, and we hope you continue to rely on Langan for our technical excellence, practical experience, and unwavering responsiveness.

**Thank you for your trust, your business,
and your friendship.**
