

LANGAN

GREEN MANTA
CONSULTING

Langan is a consulting firm with over 1,100 staff that offers an integrated mix of technical disciplines to deliver EHS business and digital technology solutions. We provide data-driven insights and solutions to EHS compliance and information management challenges faced by our clients across a variety of market sectors including utilities, oil and gas, mining, transportation and logistics, life sciences, manufacturing, consumer products, and property management.

Green Manta Consulting was founded as part of a vision to create a company that benefited both our clients and the planet. We provide consulting services on EHS Software projects. Our unique expertise comes from 100+ projects delivered in the last 12 years that allowed us to build best practices in project management and delivery services. We collaborate with clients and focus on time to value in order to maximize user adoption.

Together our firms collaborate to bring unique value to clients. The combination of Green Manta's in-depth knowledge of Enablon coupled with Langan's Enablon certified consultants, who have deep subject matter expertise, provides clients with a highly equipped consultant team.
