

Jonathan LeBoon, PE, LEED AP

Senior Associate

Site Development, Urban Redevelopment, & Hydraulics/Hydrology

14 years in the industry ~ 12 years with Langan

Mr. LeBoon has over 14 years of experience in land development and civil engineering design for private and public clients. His specialties include site planning, stormwater-management and water resources design, utility infrastructure design, regulatory permitting and construction administration. Mr. LeBoon has managed and provided engineering oversight for projects throughout the United States and the world, including Europe, Central America, South America, Asia and Africa. In addition to managing projects using traditional design-bid-build delivery methodology, Mr. LeBoon also specializes in design-build and is an active member of the Design-Build Institute of America (DBIA).
