

A wide-angle photograph of a university campus. In the foreground, a large, active fountain with multiple jets of water is the central focus. To the left, a group of students sits on a bench under the shade of a large tree. In the background, modern university buildings are visible, including one with the name 'TILLET' on its facade. The scene is set in a park-like area with trees and walkways.

# UC MERCED - 2020 EXPANSION

Merced, CA

The University of California, Merced, is expanding its campus — an unprecedented four-year project that will nearly double the physical capacity of the campus by 2020 — allowing it to grow to 10,000 students. Langan is providing geotechnical and seismic engineering services for the \$1.3-billion multi-building project being developed via a public-private partnership (P3).
