Client Benefits

Increase Health and Safety for Employees

Enhance Regulatory Compliance & Transparency

Enhance Industry Reputation

Decrease Operational Costs

Reduce Liability Risk & Exposure

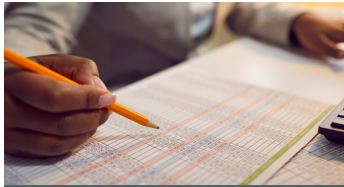

Develop Robust Strategic Planning

Leverage Technology as the Game Changer

Identifying Client Pain Points

With the average worker spending 2.5 hours per day searching for information, quick access to reliable information has become a top priority for our clients. Our team resolves the followings issues:

Outdated Systems

Too Many Systems

Inefficient Data Collection and Reporting

Limited Access to Information

Troubleshooting Client Issues To Accomplish Their Goals

Close Data Gaps

Improve data quality with prompts that prevent user errors.

- Assist with historical data migration
- Integrate data into one platform from different data streams
- Standardize reporting procedures
- Develop a project controls system (PCS) for data tracking

Enhance Reporting Tools

Empower employees with tools that simplify common tasks.

- Document environmental obligations
- Track water and energy resource usage
- Implement H&S audit protocols and inspection checklist
- Manage Corrective and Preventive Actions (CAPA)

Strengthen EHS Impact

Ensure a safe environment while meeting organization's goals.

- Train employees in digitalizing EHS
- Measure H&S and performance goals for facility operations
- Report on corporate social responsibility and sustainability

Supporting Clients Throughout the Process

Langan's Digital EHS Management and Compliance team helps our clients from project inception through rollout, and also can provide ongoing maintenance and support.
