

Cloud & Managed Services for GIS

Accelerate Your GIS with Secure, Scalable Cloud Solutions

Langan's Cloud & Managed Services for GIS are designed to streamline operations, enhance system performance, and reduce the burden on internal IT teams. Our experts collaborate with your team to assess GIS requirements, design a strategic migration roadmap, and build a resilient, cost-effective cloud environment. By modernizing your infrastructure and offloading day-to-day system management, we help you reduce project risk, minimize downtime, and free up valuable IT resources—delivering greater efficiency, scalability, and long-term savings.

Key Benefits

Scalable System Design

Deploy a high-performing, future-ready architecture built to support growth.

Continuous Performance Monitoring

Gain real-time visibility into system health with alerts and rapid issue resolution.

Seamless Cloud Migrations

Confidently transition from on-prem or cloud-to-cloud with expert planning and minimal disruption.

Automated Maintenance

Stay fully updated with automated ArcGIS upgrades, OS patching, and system upkeep.

Flexible Remote Access

Empower your team with secure, high-speed GIS access from anywhere on any device.

Enterprise-Grade Security

Protect your GIS with advanced access controls, proactive patching, and built-in compliance.
