

GIS for Asset & Facility Management

Delivering Scalable Solutions Throughout an Asset Lifecycle

Our technology professionals support your portfolio throughout every stage of the asset lifecycle, whether in cities, rural areas, or complex campuses. We offer integrated solutions to streamline workflows, boost efficiency, and drive sustainability. We ensure optimal asset performance from start to finish covering all phases from planning and design to construction, operations, maintenance, and renewal.

Key Benefits

Cost Savings

Proactive maintenance management minimizes costs, extends asset life, and reduces operational costs.

Risk Mitigation

Active monitoring to identify, predict, and resolve issues early; reducing risks and improving safety.

Data-Driven Decision Making

Advanced digital tools deliver insights for informed decisions to optimize resources and extend asset life.

Sustainable Outcomes

Facilities are managed sustainably to reduce environmental impact and boost energy efficiency.

Campus Expansion Planning

Use GIS intelligence to plan infrastructure projects and minimize disruptions.

Integration with Existing Systems

Seamlessly integrate with existing enterprise business systems for real-time data.

GIS for Asset & Facilities Management Solutions

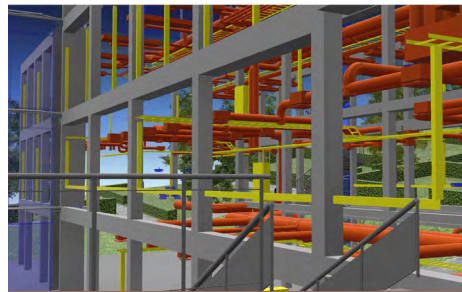

Management for the Built Environment

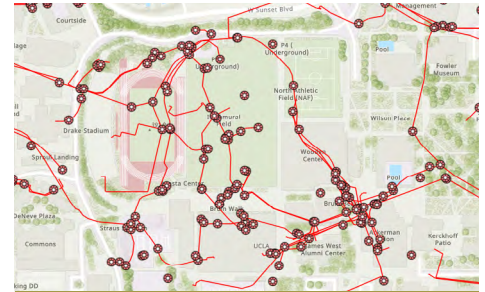

Facility Operations & Indoor Mapping

Space Planning Solutions

Digital Twins

Utility Management

- Integrated 3D & Reality Capture
- Asset Inventory, Assessment, & Inspections
- Data Collection & Management
- Environment, Health, and Safety Compliance
- Utility Mapping & Network Management
- Indoor Routing & Wayfinding Apps
- Building Space Planning & Management
- Access Control Points with Security System Integration
- Operational Status & Performance Dashboards
- Site Selection, Capital Planning, & Resource Allocation
- Mobile Apps & Field Operations Enablement
- Indoor Mapping, Analysis, and Reporting

Software Solutions

We have experience utilizing leading platforms to help accomplish our client's goals.
